News Service.

Nov. 2.—Sunday was
a day of rest for the two
candidates in the mayoralty
race, E. McCall and John Pur-

part of the day in con-
tact with Tammany friends in
for his final whirl through
the boroughs tomorrow.

Addressed two meetings dur-
ing the day at Huespoint Casino
in Turnhall, Eighty-fifth
avenue, where sev-

erally had assembled
crowds.

Candidates are in good health
and absolutely confident of
their success.

McCall, chairman of the fu-
ture committee, said today:
"I will have a vote of 840,
and will have a plu-

rimate.

Johnson, chairman of the fu-
ture committee, predicts
that he will win by 90,
the Manhattan borough
which will be swept in de-

tail.

There is some cutting of the
candy in the Fifth avenue
race, Mr. Koenig, "but that
can be made up by the Dem-

ocratic vote for Mitchell. Fully
the Jewish voters will be
in the race."

Progressive leader in
the race, estimates Mitchell's
vote at 1,000. The possible scratch-

ers will be more than off-
set by regular Republi-

can and insurgent Democrats
and Murphy methods.

Leaders in the other
boroughs in similar strain.

Is 669,762.

Registration for the greater
part of the day, but the usual
crowds to go to the polls,
and that the total vote will
be 100,000.

company would fight govern-
ment suit to the last ditch.

SOUTHERN PACIFIC READY FOR BATTLE

**Julius Kruttschnitt Talks of
the Possibility of Suit by
the Government.**

By International News Service.

OMAHA, Neb., Nov. 2.—"If the South-
ern Pacific-Central Pacific merger is at-
tacked by the government, the Southern
Pacific will fight to the last ditch," says
Julius Kruttschnitt, chairman of the
board of the Southern Pacific. Mr.
Kruttschnitt has just returned from a
trip of inspection of the entire Southern
Pacific system and is now en route to
New York.

"The Southern Pacific-Central Pacific
arrangement is not at all like the Union
Pacific-Southern Pacific. In the latter
Union Pacific simply purchased Southern
Pacific. In the former Southern Pacific
and Central Pacific have always been
one road with a different name for its
two sections. They were constructed as
one road, not as two, and there has
never been a merger because a merger
was not necessary. It was one road with
a different name for its two ends."

"Southern Pacific has the very best
lawyers obtainable and they tell us we
have broken no laws. We will fight to
the last ditch if we are attacked."

"I found business conditions good, but
they could be better. Our line is not
congested. We could handle more traf-
fic if we had it, but conditions are sat-
isfactory, without using any superlatives.
Because of a partial fruit crop failure,
California has not as much money as the
people there could wish for, but there is
no setback. That condition, however, af-
fects freight traffic."

"Double-tracking of the Central Pacific
will be continued with all speed, and as
much second track as possible will be
laid before the Panama-Pacific ex-
position in 1915. I don't think we will have
the entire line from Ogden to San Fran-

cisco double-tracked by that time, how-
ever."

"The recent changes on the Rock Is-
land will not affect the Southern Pacific
as far as I can see. There is a close in-
terchange of traffic between the Rock Is-
land and the southwest, and we anticipate
no change of policy under the new man-
agement in Rock Island affairs."

ACTION OF STRIKERS ANGERS GOVERNOR

**Adjutant General of Colorado Is Or-
dered to Disarm the Miners in
Tent Colony.**

DENVER, Nov. 2.—Angered by the
manner in which strikers at the Lud-
low tent colony in the southern Colo-
rado coal strike zone, yesterday obeyed
Adjutant General John Chase's order for
surrender of arms, Governor E. M. Am-
mons today notified the adjutant gen-
eral that he would expect the applica-

tion of his search and seizure rights to
about the camp or somewhere in the
vicinity of the tent colony. The strikers
general that they would deliver over
their arms and ammunition, the strikers
handed to his adjutant just 14 rifles and
a small quantity of ammunition. It is
positively known, however, that the stri-
kers have many hundreds of guns concealed
about the camp or somewhere in the
vicinity of the tent colony.

Adjutant General Chase tomorrow will
attempt the complete disarmament of the
miners. At the request of Governor Am-
mons who today learned that two strikers
engaged in a rifle duel at the colony there.

No reports of trouble in the strike re-
gion were received by the governor to-
night.

After Election Day

With the shouting and speech
making over the world will keep
turning about as usual and the
world's rewards will continue to
go to those who hustle for them.

Look at the advertising these
days in the live newspapers like
The Tribune.

It does look as though plenty of
our good citizens believe good times
are at hand and business was
here for the asking.

Nothing gives you a better index
to the spirit of the times than the
advertising.

It's the buoyant voice of live
men. They have done something.
They believe it is good. They are
not ashamed to tell about it.

Their messages are to you. There
is profit to you in reading them.

You will find the things you
want advertised in The Tribune.

WILSON TRYING TO ELIMINATE THE DICTATOR

**Policy of United States Made
Known in Diplomatic Cir-
cles Abroad and General
Support Is Expected.**

**PRESIDENT MAY USE
DRASTIC MEASURES**

**Warships at Vera Cruz In-
structed Not to Leave Port
Unless Ordered by the
Navy Department.**

WASHINGTON, Nov. 2.—Though ev-
ery official of the United States govern-
ment has been cautioned to maintain
absolute silence while the plans of the
Washington administration for solving
the Mexican problem are worked out, it
became known from many well-in-
formed sources today that a supreme
effort is being made to bring about
General Victoriano Huerta's retirement
from the provisional presidency of Mex-
ico.

It is the belief of the administration
that any plan for a constitutional elec-
tion in Mexico depends on Huerta's
elimination and some declaration from
Huerta now is awaited.

The future policy of the United
States is being quietly and informally
made known in diplomatic circles
abroad and there are intimations that
before many days foreign governments
generally will have been apprised of the
American attitude. It is unlikely that
there will be any publication of the
American policy until Europe has been
formally sounded out.

Support Desired.

What the United States desires, it is
believed, is that the powers shall in-
dicate their support of its efforts to solve
the problem before it approaches the
Mexico City administration in a final
effort to secure the elimination of
Huerta.

The conference at Vera Cruz before
John Lind, representative of President
Wilson, and the Norwegian and German
ministers is believed to have been held
with that end in view, although no of-
ficial explanation has been given of the
meeting.

Senator Bacon, chairman of the for-
eign relations committee, said today the
one thing needed to insure a peaceful
settlement of the Mexican problem was
for the European governments to indi-
cate in some positive way that they in-
tended to leave in the hands of the
United States the formation of a policy
to be pursued toward Mexico and that
they would give the policy their sup-
port.

Expect Huerta to Resign.

"If this is made so clear," he said,
"that General Huerta will understand,
he will be compelled to accede to any
demand made by the United States and
a peaceable solution of the Mexican
problem would very promptly be
found."

The subject of much comment in of-
ficial circles is the absence of official
denial to the many stories forecasting
intervention. Such officials as were
asked tonight if they would authorize
a denial that the United States might
use drastic measures in case Huerta
refused to yield, said they did not care
to discuss the matter. Secretary Dan-
iels of the navy department, when
asked concerning the four American
ships on the east coast of Mexico for
whose relief four other ships are en-
route from Hampton Roads, declared
that while transfer ultimately was in-
tended, the ships at Vera Cruz had
been notified not to leave until ordered.

No Objection Made.

He declared that the navy department
had not yet decided when it would order
the ships to return, but that for the present
seven American warships would be
kept in and around Vera Cruz.

Though it had been generally supposed
that the Mexican Huerta government had
made objection to the presence of the
American vessels beyond October 23, the
date on which official permission for
them to stay expired, it was learned to-
day that no objection has been conveyed
at any time to the United States through
official channels to the presence of the
ships. Although there have been publi-

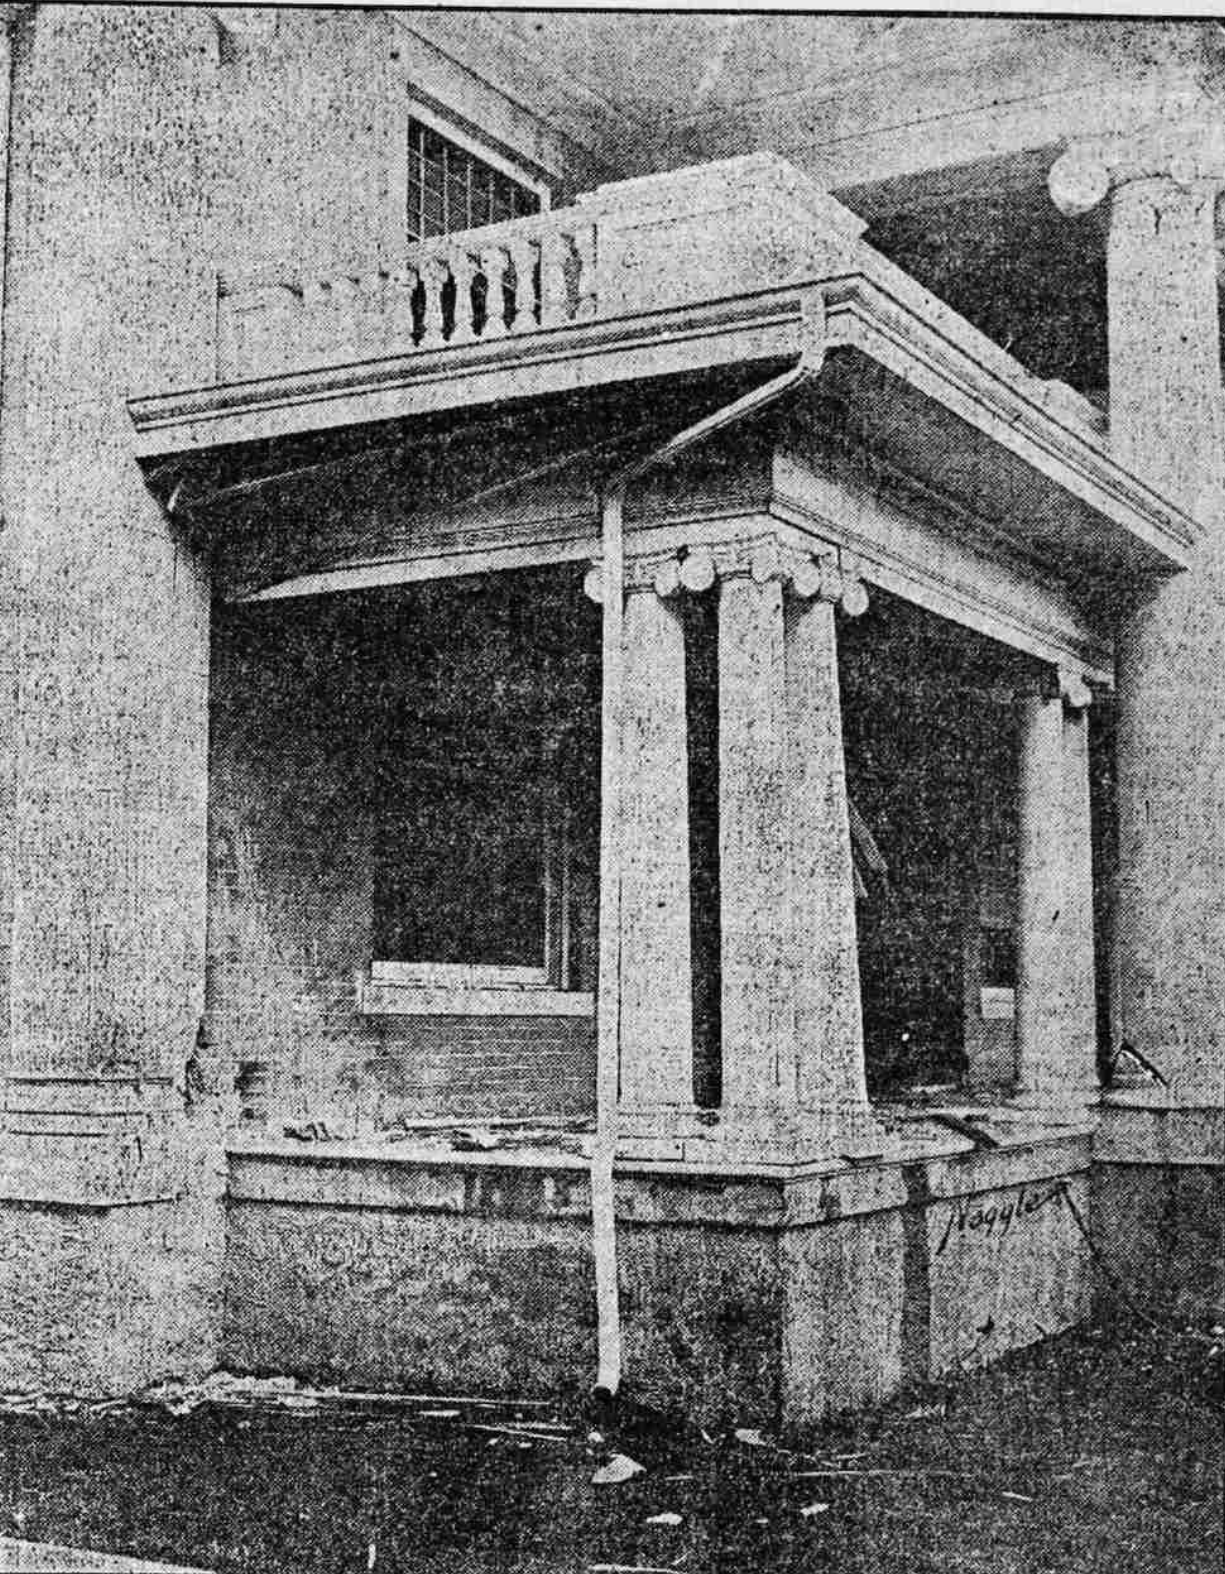

cated statements from General Huerta along
this line, it is believed here that Huerta's
proclamation as to the result of the elec-
tion of October 23 will be made tomor-
row or shortly thereafter.

PEASANT JURYMEN FAIL TO COMPREHEND

**Theological Witnesses Follow
Medical Experts at the
Beiliss Trial.**

KIEV, Nov. 2.—Counsel for the
defense in the trial of Mendel Beiliss,
charged with murdering the Christian
boy, Yushinsky, have succeeded in pre-
venting the prosecution from having the
minutes read of previous cases dealing
with alleged ritual murder. The medical
testimony having been concluded, the
sitting today began with the hearing of
theological witnesses, among whom only
one upholds the views of the prosecution,
namely, the priest, Father Pranites,
whose evidence already to a great extent
has been repudiated by the vatican au-
thorities.

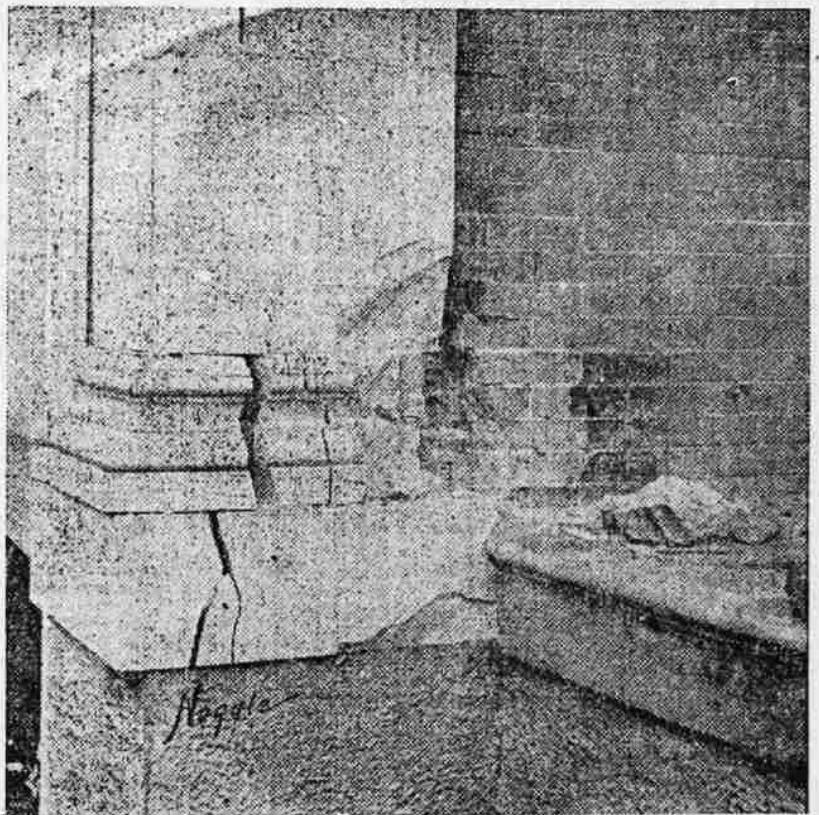

Among other experts to be heard is
Professor Kokoroff, a relative of the
Russian premier. A long list of abstruse
questions concerning ritual murder was
put to the theological experts, neither
questions nor answers apparently being
comprehensible to the jury, which is com-
posed of peasants and small shopkeepers.
The list included such questions as:
"By what did the Jews replace the
victim in the case of the first-born sacri-
ficed to Jehovah?" "What portion of
the body, according to the interpretation
of the Talmud and the Cabala is it
out of which the soul is mostly held to
issue with the blood?"

While Father Pranites was testifying
he mentioned Christ; whereupon the pres-
ident of the court declared that the name
of Christ only could be mentioned when
the court was sitting behind closed doors.
Pranites contended that the extermina-
tion of the Christians was the main ob-
ject of the existence of the Talmudists.

At the instance of the prosecution long
extracts were read from a book written
by a Greek named Neophyte, a converted
Jewish rabbi. According to this book
Christian blood is in constant demand
by Jews all over the world for various
uses on all the ceremonious occasions of
life.

INFERNAL MACHINE FOUND BY GUARDS

By International News Service.
TRINIDAD, Colo., Nov. 2.—The de-
struction of a Colorado Fuel & Iron com-
pany coke washer, a \$125,000 structure,
at Tabasco, and the loss of a score of
lives was probably prevented late today
when eight infantrymen of a force of
military guards stationed at that camp,
discovered an infernal machine. In
proximity to the washer. The bomb was
expertly made and consisted of a pen-
cubard barrel filled with black pow-
der, in which had been placed three
sticks of dynamite with fuses attached.

POLICEMAN SHOTS DESPERATE MEXICAN

**Anti-American Feeling Crops Out in Los
Angeles Foreign Quarter With
Fatal Result.**

LOS ANGELES, Cal., Nov. 2.—As an
indirect result of what was said by the
police to be bitter anti-American feel-
ing among the thousands of Mexicans
in Los Angeles, Adolfo Moreno, a Mex-
ican, was shot and killed here today by
Albert C. Staples, a policeman, who
had been shot at by Moreno and four
companions.

The officer was walking his beat in
the Mexican quarter when he saw Mo-
reno and four other men, all apparently
intoxicated, crossing the street toward
him. Suddenly one of the quintette
fired at Staples. The officer drew his
own revolver and shot Moreno through
the body. Then he arrested J. Cortez,
one of Moreno's companions, but the
other three fled.

A squad of officers then went through
the Mexican quarter and took fifty Mex-
icans to the city jail, where they were
searched for weapons. Thirty were re-
leased and twenty held for further in-
vestigation.

According to the police, hundreds of
Mexicans for many months have made
it a weekly practice to congregate Sun-
day afternoons and nights at the Plaza,
on the edge of Sonora town, as the
Mexican district is called.

EDISON GIVES UP WORKING AT NIGHT

**Yields to the Solicitations of His Faith-
ful Wife and Advice of a
Physician.**

By International News Service.
ORANGE, N. J., Nov. 2.—Thomas A.
Edison has given up night work in re-
sponse to the orders of his physician,
supplemented by the pleadings of Mrs.
Edison.

For many years it has been the habit
of the inventor to experiment all night
in his laboratory in West Orange, where
he often remained for days at a time,
giving very little time to sleeping or eat-

ing. The electrical wizard, who celebrated
his sixty-sixth birthday last February,
recently recovered from a severe attack
of indigestion which kept him in the
house for two weeks. When he recov-
ered his physician warned him that if he
wished to prolong his days of usefulness
he must give more time to mental and
physical relaxation. He at first protested,
but finally yielded when Mrs. Edison,
with a tremor in her voice, asked:
"Do you want to leave us?"

partment of The Tribune, is entertaining

five years has been in the United States
navy. Mr. Tibby is on a thirty-day fur-
lough, and at its expiration will report to

two-year course in the machinist school.

NO CLEW FOUND TO IDENTITY OF DYNAMITERS

**Members of Black Hand
Gang at Ogden Who At-
tempted to Destroy Eccles
Home Still at Large.**

**DETECTIVES IN DARK
CONCERNING BANDITS**

**Chief of Police Planning Cam-
paign; Prominent Men May
Band Together to Ren-
der Assistance.**

Crimes Attributed to Organized Band

FOLLOWING is a list of crimes of
comparatively recent date, com-
mitted in Ogden, which leads to the
conclusion that a well-organized
gang of cunning bandits has head-
quarters in this city:

Hold-up of Oregon Short Line
train at Five Points.
Robbery of Overland Limited train
at Rescoe.

Extortion of large sum of money
and robbery of diamonds from Mrs.
McLaren Boyle.

Theft of diamond earrings from
Mrs. George Culver and extortion of
\$300 from George Culver.

Extortion of \$500 by means of a
black hand letter to Mrs. Thomas D.
Dee.

Blackmailing Mrs. Ralph Bristol
out of \$500.

Dynamiting the home of Leroy
Eccles after failing in an attempt to
secure large sum from Mrs. Bertha
Eccles by means of black hand let-
ters.

Special to The Tribune.

OGDEN, Nov. 2.—Without having ob-
tained the slightest clew to the probable
identity of the persons who exploded a
charge of dynamite on the front porch of
the Leroy R. Eccles home early this
morning, Mr. Eccles and his brothers,
sons of the late David Eccles, have re-
signed themselves to the next move of
the cowardly black hand operators. They
are convinced that the wrecking of the
beautiful home on Eccles avenue was but
another link in the chain of threats fol-
lowing their refusal to accede to the
money demands of the letter writers.

No action on the part of the Eccles
family was made today to enlist the aid
of the authorities as a result of the dy-
namite depredation. It was rumored to-
day, however, that members of the Ec-
cles family, together with R. S. Bristol,
R. B. Porter and other prominent men
of the city had banded themselves to-
gether for mutual assistance in case of
further activities by the black hand crimi-
nals, but this could not be confirmed.

Mayor A. G. Fell has extended practically
unlimited scope in the use of city funds
for the employment of outside assistance
to the police or in any other manner
which will aid in apprehending the men
who are terrorizing the city.

Planning Campaign.

After interesting himself and his offi-
cers in the affair of last night, Chief of
Police W. I. Norton has been formally
requested to take up the Eccles case
and he is planning his campaign of ac-
tion. Every detail of the affair was gone
over by Chief Norton and his officers to-
day, without obtaining a scrap of in-
formation which would aid materially to
that already in their possession.

"I didn't think they had the nerve to
do it," was the sentiment expressed gen-
erally about the city today with regard
to the actions of the letter writers in
putting their intimidating threats into
action at the Eccles home. That the
criminals are aware of who has been
most persistent in the refusal to give
up the money demanded of Mrs. Bertha
Eccles, widow of the late multi-million-
aire, is shown by the blowing up of the
Leroy Eccles home instead of the fam-
ily home at Jefferson avenue and Twen-
ty-sixth street, or the home of D. C.
Eccles.

No New Information.

Mr. Eccles declared tonight that he had
not come into possession of any in-
formation, as a result of the explosion,
which would prove of value in attempt-
ing to trail down the criminals. He con-
fessed that the dynamite plant came as
a total surprise because he had antici-
pated that if any effort was to be made
to carry out the threats made by letter
and over the telephone within the past
few weeks it would come in a far dif-
ferent manner.

That the black handers regard Leroy
and David C. Eccles as the real destroy-
ers of their plot to extort money from
their mother is shown by a telephone
conversation between Leroy Eccles and
one of the plotters about two weeks ago.
At that time the unknown person, who
called Mr. Eccles at his home, referred
to both Leroy Eccles and David C. Eccles
by their first names. The repeated
